THE FIRST 72 HOURS

“The secret to *client retention?* What happens right after they pay.”

Why onboarded clients lose motivation on long timelines—and how top fee-only RIAs lock in 5–year loyalty in the first 3 days.

ONBOARDED CLIENTS LOSE MOTIVATION ON LONG TIMELINES

The moment a client pays your ₹50k–₹85k fee, their excitement is at peak levels. Then, the classic trap happens:

1. The "Radio Silence" Black Hole

The adviser goes dark for 10–14 days to analyze spreadsheets. In that silence, **buyer's remorse creeps in**: *"Did I just waste my money?"*

2. Initial Motivation Opportunities Wasted

When you ask for bank statements a week later, the client delays. Momentum dies, and renewal at Year 2 becomes an uphill battle.
