CLIENT RETENTION BLUEPRINT

harinarayan.me

The First 72 Hours After Payment

Why onboarded clients lose motivation on long timelines—and how top fee-only RIAs lock in 5-year retention.

1

The Peak Window

Why Day 1 excitement decays after 48 hours without touchpoints.

2

The Silence Trap

The 10-day analysis gap where buyer's remorse quietly creeps in.

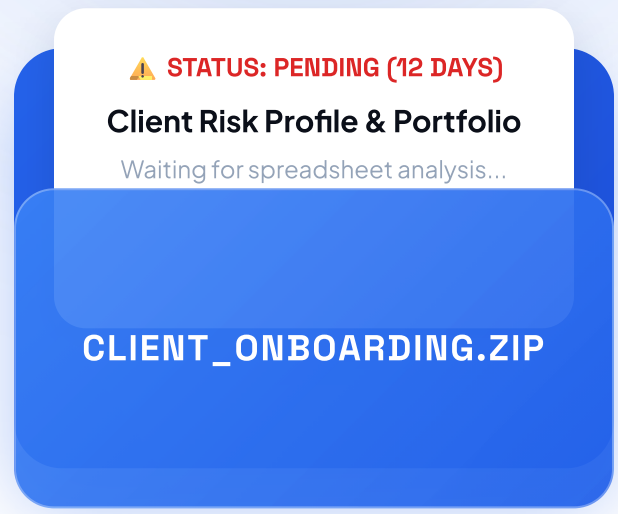

3

The 3-Day Fix

Visual milestones, frictionless uploads, and the quick-win report.

⚠️ 01 // THE SILENCE TRAP

The "Radio Silence" Black Hole

The client paid ₹60,000. Then they hear nothing for 10 days.

In that silence, initial motivation dies. They start wondering: *"Did I just waste my money?"* When you ask for data a week later, they drag their feet.

🎯 02 // ACTIONABLE ROADMAP

How Top RIAs Fix This in 72 Hours

Replace weeks of manual confusion with a structured 3-step digital journey:

1

Day 1: Instant Visual Milestone Roadmap

A clear screen right after payment showing exact deliverables for Day 3, 7, and 14.

2

Day 2: Frictionless 5-Minute Portfolio Upload

Secure portal upload instead of emailing passwords, PDFs, or printing paper.

3

Day 3: The "Quick-Win" Leak Report

A 1-page commission drag audit exposing ₹40k+ in regular fund leaks. Proves ROI immediately.

✓

The Result: 5-Year Loyalty & Immediate Referrals

Clients who experience day-1 clarity never question year-2 renewal fees.

🧠 03 // CLIENT PSYCHOLOGY

HNI Client Perspective

“What is my adviser actually doing right now?”

When you spend 10 days working silently in Excel, the client doesn't see your hard work. They only see **silence**.

MOTIVATION RETENTION SCORE

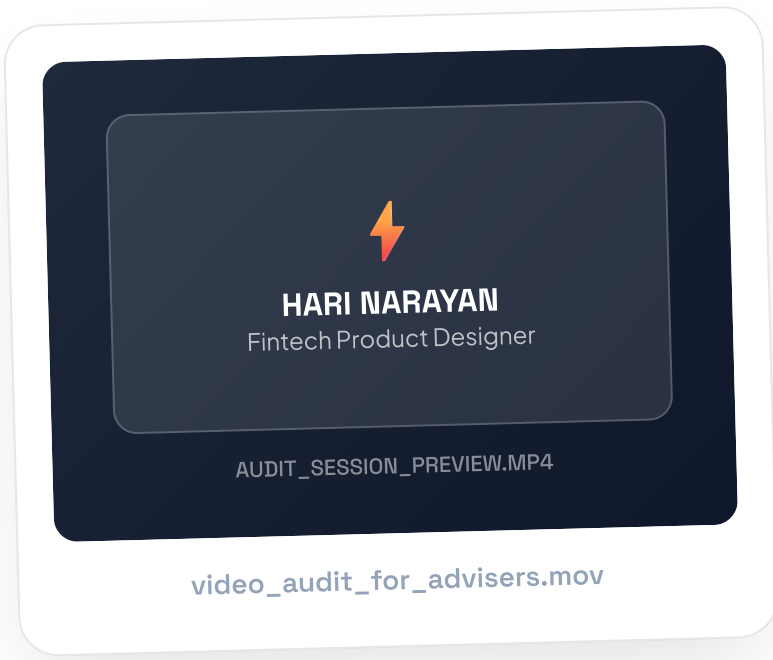

With instant roadmap: **94% High Trust** vs 18% with silence

+76%
