01 // THE DIGITAL CREDIBILITY GAP

Why HNIs Don't Book Calls On Your Advisory Website. (And The 4 Levers That Double Conversion)

You have deep market expertise and a SEBI license. But if your website looks like a 2005 tax accountant directory, HNIs bounce before ever reaching out.

HARINARAYAN.ME

✕ OUTDATED ADVISORY BROCHURE 🏚️

Generic WordPress, stock photos & a "mailto:" link

HNIs question your fee before speaking to you because the site looks like an amateur blog.

✓ INSTITUTIONAL RIA PLATFORM 🏛️

Interactive Fee Drag Tool, SEBI Shield & 60s Booking

Establishes elite fiduciary taste immediately. Prospects arrive pre-sold on your value.

⚠️ 02 // THE REFERRAL LEAK

Where 60% of Your Warm HNI Referrals Disappear

A client raves about you to a founder friend over dinner. The founder Googles your firm the next morning. Here is what happens:

PATH A: NO STANDALONE SITE / 2008 TEMPLATE

“Is this firm actually managing serious money?”

They see generic stock photos, an @gmail address, or broken layouts on mobile. The founder hesitates and closes the tab.

PATH B: HIGH-TRUST FINTECH PLATFORM

“This firm operates like an elite institutional office.”

SEBI credentials front and center, instant fee calculator, clean mobile booking. Consultation booked in under 60 seconds.

64% of HNI investors vet an adviser's digital presence before agreeing to an intro call. **64%**
