01 // WEBSITE AUTOPSY

3 Things to DELETE From Your Advisory Website. (If You Want ₹5 Cr+ HNI Clients)

Most SEBI registered advisers don't need more complex pages. They need to eliminate the 3 outdated elements that secretly destroy HNI trust in the first 5 seconds.

HARINARAYAN.ME

DELETE #1

Stock Chess Boards

Generic handshake & sprout photos scream "retail distributor."

DELETE #2

The "Contact Us" Box

Zero qualification. High-net-worth clients never write in blank forms.

DELETE #3

40-Page PDF Reports

Unreadable on mobile. Overwhelms prospect before discovery.

✕ 02 // WHAT TO ELIMINATE FIRST

Kill the Stock Photos & The Dead “Contact Us” Form

When an HNI with ₹10 Cr visits your homepage, here is how they evaluate you:

1

ELIMINATE: STOCK PHOTOS OF HANDSHAKES & COMPASSES

Replace with: Clean Editorial Fiduciary Typography

Put your SEBI RIA Registration (`INA000...`) & BASL ID prominently in the header. Institutional clients want verified regulatory credibility, not Shutterstock models.

2

ELIMINATE: THE GENERIC “CONTACT US / SUBMIT” BOX

Replace with: 60-Second Consultation Intake Desk

Give prospects 3 clear wealth tiers (₹1Cr - ₹5Cr / ₹5Cr - ₹25Cr / ₹25Cr+) and instant calendar sync. High-ticket investors respect structured intake.

CONVERSION FRICTION METRIC

Websites with structured intake desks convert **3.1× more HNI meetings** than blank contact forms.

⚖️ 04 // THE FIDUCIARY REALITY

Investor Perception

“Your website is the digital front door to your fiduciary practice.”

You wouldn’t host an HNI client meeting in a messy, disorganized office. Don't let your website give them that exact same feeling before you even pick up the phone.

INBOUND MANDATE CONVERSION RATE

Advisers with modern, fast web platforms close **2.8× more discovery calls**
