01 // CASE STUDY TRANSFORMATION

Before vs. After: Redesigning a ₹100 Cr SEBI RIA's Digital Platform

Here is what happened when we took an established advisory practice and rebuilt their web presence into an institutional HNI conversion engine:

BEFORE (OLD BROCHURE)

2 Inbound Inquiries / Mo.

Stock photos, broken mobile layouts, and a generic contact form. Most warm referrals dropped off.

48-HOUR CASE STUDY

AFTER (AURUM FIDUCIARY STACK)

9 Qualified HNI Calls / Mo.

Interactive Fee Drag Calculator, SEBI Shield & 60-second intake desk with instant WhatsApp alerts.

🔍 02 // THE CONVERSION LEAKS

The 3 Costly Flaws On Their Previous Website

This firm had stellar credentials and a 12-year track record. But their old website was actively driving clients away:

LEAK 1: UNRESPONSIVE ON IPHONE

Tables broke on mobile screens

Over 70% of high-net-worth founders view links on their phone. When buttons are clipped and text is unreadable, they bounce in 4 seconds.

LEAK 2: HIDDEN SEBI COMPLIANCE CREDENTIALS

Looked like an unregistered fin-influencer

Mandatory SEBI investor charter and fee caps were buried in dead PDF links. Prospects couldn't verify if they were dealing with a true fiduciary.

LEAK 3: BLANK EMAIL FORM WITH ZERO QUALIFICATION

Endless spam, zero real HNI bookings

Unfiltered forms invited sales spammers while busy founders refused to type their financial life into an unencrypted comment box.

03 // THE 3 HIGH-TRUST UPGRADES

The High-Converting Elements We Deployed in 48 Hours

Here are the exact custom Next.js components I implemented to transform their digital conversion:

UPGRADE 01

INSTITUTIONAL TRUST

Sticky Fiduciary Credibility Shield

Prominent SEBI Registration (`INA...`), BASL ID, and 1-click Investor Charter directly in the header. Establishes instant regulatory legitimacy.

UPGRADE 02

ROI DEMONSTRATION

Interactive Direct Plan Fee Drag Calculator

Clients input their ₹5Cr+ portfolio and watch the ₹40L+ commission drag disappear on screen. Proves advisory ROI before the call.

UPGRADE 03

FRICTIONLESS DESK

60-Second Consultation Desk with WhatsApp Sync

Pre-qualifies wealth tiers, provides a 4-point call prep checklist, and pings the adviser's mobile with an instant 1-click WhatsApp handshake.

📈 04 // THE INBOUND RESULT

Case Study Outcome

“Traffic didn’t change. But warm consultation bookings jumped from 2/mo to 9/mo.”

They didn't spend an extra rupee on marketing. The moment their digital front looked like an institutional family office, word-of-mouth referrals stopped leaking.

HIGH-TICKET INBOUND LIFT

Direct HNI discovery bookings increased by **+350%** within the first 30 days

+350%

🎁 05 // COMPLIMENTARY 1-ON-1 AUDIT

Want this transformation for your advisory firm?

Send me your current website or firm name. I'll record a personalized 3–minute video breakdown showing what's holding your website back and how to turn it into an HNI client magnet.
