THE FIRST 72 HOURS

The Client Motivation Window: What Happens Right After They Pay

The moment a client pays your ₹50,000–₹85,000 advisory fee, their excitement and motivation are at an all-time high. But what happens next determines if they stay for 5 years or leave with buyer's remorse.

❌ The Trap Most Advisers Fall Into (The "Radio Silence" Gap)

The client pays $\rightarrow$ they get a boring generic receipt $\rightarrow$ then radio silence for 7–10 days while the adviser manually crunches portfolio spreadsheets. In that silence, **buyer's remorse creeps in**: *"Did I just waste ₹60,000? What am I actually getting?"*

✅ The High-Trust Reality (Harnessing Peak Motivation)

In the first 72 hours, clients *want* to take action. If you give them an elite, digital onboarding experience with instant clarity, their confidence skyrockets. You eliminate buyer's remorse before it even starts.

The 3 Outcomes of a Great First 72 Hours:

1. **Zero Buyer's Remorse:** Client feels proud they hired a true professional.
2. **Immediate Action:** Documents and data are uploaded in 24 hours without nagging.
3. **Automatic Year-2 Renewal:** High trust established on Day 1 sets the anchor for lifetime retention.

THE 3-DAY FRAMEWORK

How to Deliver a 10/10 Onboarding Experience

Replace clunky email attachments with a clean, structured 3-day experience:

DAY 1

Instant Confirmation & The 14-Day Roadmap

Within 5 minutes of payment, the client sees a digital welcome screen with a clear visual timeline: *"Here is what happens on Day 3, Day 7, and Day 14."* They know exactly what to expect. Zero uncertainty.

DAY 2

Frictionless Document & Portfolio Capture

Instead of emailing back-and-forth passwords and CAS statements, the client gets a clean, secure digital portal to upload or link their portfolio. It feels like interacting with Zerodha or Apple, not a government bureau.

DAY 3

The "Quick-Win" First Value Delivery

Don't make them wait 2 weeks for their full financial plan. On Day 3, send a 1-page *"Quick-Win Audit"* (e.g. identifying ₹40,000 in hidden distributor commission leaks in their current funds). The client immediately thinks: **"This adviser already paid for himself!"**

Want a Digital Onboarding Portal for Your Practice?

I build custom, institutional-grade onboarding workflows for SEBI RIAs that eliminate client ghosting and automate compliance.
